

Nanoleaf Canvas

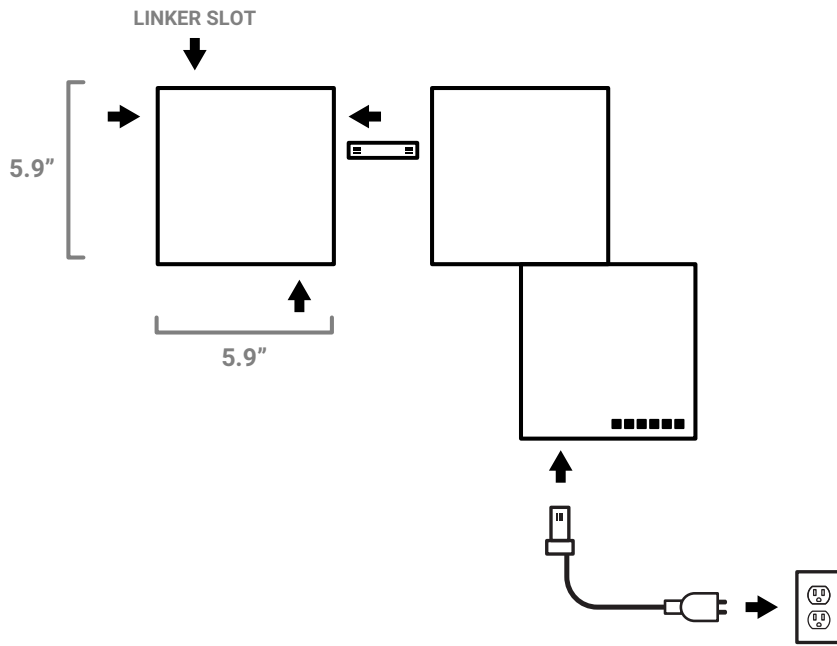

Create Your Own Masterpiece.

Nanoleaf Canvas is a touch-sensing modular smart light that takes lighting beyond the bulb. The Canvas features a revolutionary edge-lit design, LEGO-like setup and built-in Rhythm technology for real-time music sync. Transform your home from smart to intelligent with touch and voice control across all platforms. With its special attention to aesthetics, the Nanoleaf Canvas easily becomes a standalone piece of art that also happens to be the most technologically advanced smart light today.
