

Set up your Sonos Move

Mobile device required

This article will guide you through setting up your Sonos Move on your WiFi network. You can find more information on product features and specs on [Move's product page](#).

Before you start

- Plug the included charging base into power, then place your Sonos Move on the charging base to turn it on. Move will show a blinking green light on top when it's ready to be set up.
- Download the Sonos app for iOS or Android. The app will guide you through the set up process.
- Sonos Move must be set up on a WiFi network before it can be used as a Bluetooth speaker.

Set up a new Sonos system with Move

1. Open the Sonos app for iOS or Android.
2. Tap **Set up a new system**, then create or sign in to your Sonos account.
3. Tap **Add** on the popup showing your Sonos product. If using the Sonos S1 app, tap **Continue > Set up products**.
4. Follow the steps in the app to set up your Move and add your music and voice services.

Add Move to your existing Sonos system

1. Open the Sonos app for iOS or Android.
2. From the ⚙️ **Settings** tab, tap **System > Add Product**.
3. Follow the steps in the app to connect Move to your Sonos system.
